Chinmay Kumar Shandilya

AI Product Manager || SPJIMR Mumbai || Portfolio || GitHub

Career Summary

- Defined **AI automation roadmap** across post-order support journeys handling 10M+ annual queries balancing cost reduction, operational scalability and customer experience
- Scaled **production-grade conversational AI** systems – **voice AI**, chatbot, & **agentic workflows,** owning product lifecycle across training, testing, deployment & evaluations
- Unlocked incremental **revenue streams** through personalized cross-sell journeys across post order customer touch points

Professional Experience

AI Product Manager, Make My Trip (Post MBA) (January 2024 - Present)

Recipient of "Super Tripper of Quarter" twice in 1 year for driving AI-led CX Transformation initiatives
*Led post-order journey charter, reducing servicing cost from **₹128Cr** to **₹88Cr YOY** while maintaining **89%** CSAT and **52+** NPS*

- Built telephony integrated **LLM powered RAG voicebot**, iterated prompts and workflows to achieve 68% query containment
- Turned MyTrips page into revenue channel through personalised cross-sell journeys, **generating ₹6Cr YOY revenue**
- Architected **Knowledge Graph** based assist platform mapping **intent relationships,** reducing handling time by 186 sec per call
- Optimised latency, fallbacks, edge cases & **guardrails** across conversational workflows to reduce customer escalations by **28%**
- Designed **online LLM eval framework** with real-time drift detection, improving conversational AI quality scores to 68%
- Calibrated conversational AI workflows through **model benchmarking** and latency tuning, reducing cost-per-call by 42%
- Developed production-grade **prototypes** using Claude Code, accelerating sprint throughput by **40%** across projects

Program Manager, Make My Trip (Pre MBA) (March 2022 - December 2022)

- Identified patterns in CX behaviour and feedback to **build a predictive model**, reducing cx escalations by 34%
- Ran **50+ user interviews** in collaboration with UI/UX to identify pain areas for reaching customer support, launched Wi-Fi calling for international customers, 3 points jump in NPS

CX Program Manager, Zoomcar (Pre MBA) (January 2019 - March 2022)

Recipient of "Commandment Award - Cross Train Continuously"
*Played a pivotal role in moving Zoomcar's **business model** from asset-heavy to **marketplace** model*

- Led post sales product **GTM** for Zoomcar's launch in **3 countries**, delivering the product on time for the launch
- Automated payout systems and shifted host from monthly to trip end payouts, resulting in **13% lower** host **churn**
- To address delays in car delivery, orchestrated **3rd party API integration**, improving timely home deliveries India by 24%
- Built an **internal alert dashboard** to prevent car unavailability at pickup points, lowering no car cancellation by 38%
- Conducted monthly strategy reviews, **updated leadership on KPI progress** and product roadmap decisions

Executive Assistant - CEO's Office, Nash Ventures (Pre MBA) (May 2017 - Dec 2018)

- Led **$54M** crypto based fundraising (ICO) projects for 4 Singapore clients, driving end-to-end **project delivery** by translating business goals into **GTM** roadmaps and orchestrating **Agile execution** across product & engineering teams

Education

MBA (**PGDM**) - SP Jain Institute of Management and Research Mumbai, 2022 - 2024 (CGPA - 3.16 / 4) [**A+** in Product]
B.Tech (ECE) - Indian Institute of Information Technology Jabalpur, 2013 - 2017 (CGPA - 7.7 / 10)

Skills

Functional : AI Product Strategy, Conversational AI, Agentic Workflows, Product Roadmaps, User Journey Mapping, Prompt Engineering, AI Evaluation Frameworks, Customer Feedback Analysis
Interpersonal : Leadership, Cross Functional Stakeholder Management, CXO Communications, Strategic Problem Solving
Technical : SQL, Python, Claude Code, Cursor, OpenAI, RAG Architectures, Knowledge Graphs, JIRA, Figma

Passion Projects - AI Systems

- Deployed AI copilot **automating PRD creation**, requirement summarisation, and sprint planning workflows for product teams
- Integrated agentic workflows in Claude Code with Figma and Jira **MCP servers**, automating Jira ticket generation from designs
- Productionized AI **prototyping** workflows, accelerating experimentation and product validation cycles
